- Very Vanilla: 3" X 5" Cut with Apothecary Die
- Crumb Cake DSP: 4 ¼" X 1 ¼"
- Early Espresso Ribbon 13"

Instructions:

1. Stamp the tree/boat image with Staz On Ink. Close pad right away as it dries quickly.
2. Stamp the greeting with Early Espresso
3. Sponge the edges of Vanilla piece with Crumb Cake
4. Color using Blender pens...I used a choppy motion for the trees and blotted off some color so that boat doesn't get too dark. For class, pens are marked for the 2 colors so that you don't have to wipe off the marker tip in between colors to speed up process and save on pens.
5. Use SNAIL to adhere the DSP to the right side of your card.
6. Tie Espresso ribbon around front of card and secure with a knot at top front.
7. Attach 4 dimensionals to Vanilla piece and apply to card...you are finished.
